

# NOW ACCEPTING OUTSIDE FIRINGS

Bisque Firings: \$14 per shelf

Glaze Firings: \$18 per shelf

Shelf size: Half Round 26" (L) x 13" (W) x 6" (H)

## Details:

- Price is per shelf, not per piece, so minimum price is \$14.
- If your piece is taller than 6" you will be charged for another shelf.
- If your piece(s) don't entirely fit on the shelf, you will be charged for another shelf.
- MUST use glaze and clay rated to cone ^6. We bisque fire to cone 04 and glaze fire to cone 6.
- If you use Mayco Stroke and Coat (and other similar types of glazes) on greenware, you must disclose this. You can still use it, but you will be charged for a glaze firing.
- The bottom 1/8th of your piece must be glaze free (preferably with a waxed bottom). Place your glazed pieces on cookies (customer provided), if glaze drips damage the shelves you will be charged for any damages.
- To ensure your greenware arrives safely, best practices are to bring it while it's still mostly leather hard. We can keep it covered and allow it to finish drying here.
- MUST have your pieces clearly marked with your name.

## Disclaimers:

- Kilns are firing between 1945 degrees and 2232 degrees. A lot can happen. Portland Clay House is not responsible for damaged pieces or undesirable glaze results. We will do our best to ensure your pottery is well cared for.
- We will do our best to have your pieces fired within 7-10 days, but do not make any guarantees. Turn around times will vary depending on studio workload.
- We will email you when your piece is ready. You must pick up your pieces within 30 days or we will dispose of it.

### Please Confirm:

☐ Bisque Fire

☐ My pieces has Mayco Stroke and Coat Wonderglaze

☐ Glaze Fire

☐ Bottom 1/8th of piece is free from glaze.

☐ I acknowledge that if my glaze or clay damage the shelf I will pay for damages. (We recommend using cookies under your pieces when bringing them in for firing). NO heavy flux glazes like Ritual.

☐ Portland Clay House makes no guarentees regarding the outcome of your pottery. Cracks, glaze imperfections and various other issues can occur when firing pieces to high temperatures.

### Costs:

Bique Fire: **\$14 per shelf.**

Each shelf is a half-circle, approx. 26in (L) x 13in (W) x 6in (H). If your pottery uses Mayco Stroke and Coat, it will be charged as a glaze firing. Pieces taller than 6inches will be charge as another shelf.

Glaze Fire: **\$18 per shelf.**

Each shelf is a half-circle, approx. 26in (L) x 13in (W) x 6in (H). Pieces taller than 6inches will be charged as another shelf.
